INFORMATION DISPLAY
**Going Up?**
Add some flavor to your tenants ride.

Let Mitsubishi entertain your passengers with information and graphics that are meaningful to your tenants: floor directories, advertisements and elevator operations.

### Indicators
Four types of traveling-direction indicators are available. Choose one that suits your elevator and building.

- Metallic-Triangle
- Solid-Dot
- Solid-Triangle
- Solid-Arrow

### Colors
Select the best color from our four popular and eye-catching background colors.

- Urban Black
- Fine Green
- Stylish Blue
- Modern White

### Optional Information
Enjoy video, DVD playback and television (NTSC/PAL) in an elevator.

Optional Information such as DVD, TV, etc.

### Display features
The white LED backlighting used for the 15-inch display features a longer service life, consumes less energy and provides a high contrast ratio.

### Installation
The displays can be installed not only in elevators but also in elevator halls.

### Language
Standard elevator information, and date and time are available in English (US or UK), Chinese, Spanish, French or Japanese.

### Size
Two display sizes (10.4 or 15 inches) are available. Please refer to page six for details.

**Display Size**

**10.4-inch**

- 209mm
- 156mm
- Pixels: 640×480 (W×H)

**15-inch**

- 302mm
- 226mm
- Pixels: 1024×768 (W×H)

**Notice:**

- In some cases, the elevator information display cannot be installed; for example, in a small elevator car or on a narrow car operating panel. Please consult one of our local agents for details.
- The screen layout shown in this brochure is standard. Please consult our local agents for different screen layouts.
- In full-screen, direction and position indicators may fade into the background depending on the screen image.
- Some fonts are not available. Please consult one of our local agents for details.
- The elevator information display may not be viewable where the ambient brightness exceeds 1000 lux. Therefore, it is not suitable for observation elevators. (Preferable ambient brightness is 1000 lux or less.)
- Content other than elevator information is not included in this product.
